

Rüzgar Emir Bulut

Full-Stack Software Engineer

Istanbul, Türkiye · Open to remote & relocation · bulutrüzgaremir@gmail.com · +90 535 581 12 36 · linkedin.com/in/ruzgaremirbulut · github.com/Ruzzyferr

SUMMARY

Full-stack software engineer with **3+ years of experience** delivering web, mobile, and cloud products for enterprise clients and startups. Deep in the **Java / Spring Boot** and **Node.js / TypeScript** ecosystems, with production mobile experience in **React Native** and **Flutter**. Currently building an enterprise field-operations platform for **Türk Telekom**, Turkey's largest telecom operator. Shipped two consumer products end to end as founder-engineer: **Cheep** (multi-country grocery price comparison, launching in Poland in 2026) and **Conversa** (real-time dating app in production).

EXPERIENCE

Codefirst — Software Consultancy

Jan 2024 – Present

Full-Stack Engineer (Remote)

Client: Türk Telekom — Enterprise Field-Operations Platform · Oct 2025 – Present

React Native · Spring Boot · Angular

- Develop the mobile application of an enterprise operations platform (task management, inventory, work orders, planning) used by field teams at Turkey's largest telecom operator.
- Build React Native screens, navigation flows (drawer & stack), a reusable UI component library, complex forms, and dashboards.
- Design and integrate REST APIs, SMS/OTP authentication flows, and data endpoints on the Spring Boot backend.
- Improved perceived performance by introducing caching strategies, lazy loading, skeleton screens, and virtualized rendering for large data lists.

Consultancy Projects · Jan 2024 – Present

Java · Spring Boot · Node.js · TypeScript · Kotlin · AWS

- Led the full development lifecycle of an enterprise insurance platform, automating claims and payment-processing workflows.
- Architected a scalable serverless backend on AWS (Node.js, Lambda, S3, SNS, Cognito) powering an omnichannel marketing platform.
- Built client-facing applications: an Angular web platform and a cross-platform Flutter mobile app.
- Led backend development of a modern HR platform covering the end-to-end employee lifecycle.

Esenevler Sports Club

Feb 2023 – Aug 2023

Java Developer — Team Lead

- Built a secure REST API for the club's member registration and student automation system (Java, Spring Boot), reducing registration processing time by ~50%.
- Led a small development team, owning delivery of Java-based applications end to end.

Kafein Technology Solutions

Mar 2022 – Sep 2022

Java Developer

- Developed REST APIs for a hotel automation and reservation system using Java, Spring Boot, and PostgreSQL.
- Implemented JWT-based authentication and authorization and hardened database access controls.
- Reduced page load times by ~50% through query optimization and caching.

PROJECTS

Cheep — Multi-country grocery price-comparison platform · **Live, launching in Poland in 2026**

- Full-stack platform that compares supermarket prices and recommends the cheapest basket and shopping route.
- Multi-country architecture (Türkiye, Poland, Germany, Switzerland, Sweden) with per-country market scoping, currency handling, and i18n.
- Automated scraping/ingestion pipeline feeding a price-matching engine; Apache Kafka for streaming between services and Elasticsearch for product search across large datasets.
- React Native mobile app; Node.js/Express backend with Prisma/PostgreSQL, JWT authentication, and email verification.

Conversa — Real-time dating & social matching app · **In production**

- Cross-platform mobile app (React Native / Expo) with profile discovery, matching, and real-time chat and presence over Socket.IO.
- Monetization with RevenueCat subscriptions (server-authoritative via webhooks), AdMob, and boost/referral/reward systems; AI-assisted message polishing via a pluggable OpenAI / OpenRouter provider layer.
- Node.js/Express backend with Prisma/PostgreSQL, JWT auth, Expo push notifications, and AWS S3 media storage.

Swiip — Open-source real-time communication platform (Discord-like) · github.com/Ruzzyferr/SWIIP

- Servers, channels, DMs, and low-latency voice/video calls and screen sharing via a WebSocket gateway and media signalling services.
- Backend in NestJS, Fastify, Prisma, PostgreSQL, Redis, and NATS; web and desktop clients in Next.js, React, Tailwind CSS, and Electron.

SKILLS

Languages: Java, TypeScript, JavaScript (Node.js), Kotlin, SQL
Backend: Spring Boot, Spring Security, Spring Data JPA / Hibernate, NestJS, Express.js, Fastify
Frontend & Mobile: React Native, Angular, Flutter, React / Next.js
Databases & Caching: PostgreSQL, MySQL, SQL Server, Oracle, Redis, Firebase Firestore
Messaging & Search: Apache Kafka, NATS, Elasticsearch
Cloud & DevOps: AWS (Lambda, S3, SNS, Cognito), Docker, CI/CD, Git
Spoken Languages: English (C1 — full professional proficiency), Turkish (native)

EDUCATION

B.Sc. Software Engineering — Doğuş University, Istanbul, Türkiye	2024
Erasmus+ Exchange, Computer Science — University of Łódź, Poland	Oct 2022 – Feb 2023

VOLUNTEERING

Erasmus+ ESC Volunteer — Social goods distribution to beneficiaries, Katerini, Greece	Sep – Nov 2024
Erasmus+ "Guardians of the Planet" — Environmental awareness project, North Macedonia	Oct 2023
